\* Includes events that are no longer contested for that age group, implement weights have changed, hurdle heights have changed or rules on technique have changed (eg High Jump scissor) for particular age groups.

E – Fully electronic timing – time is started and stopped electronically.

S – Standardised times - As of 2015, GLAC converted all manual hand times to standardised times using the formula set out below. (This was instigated by LAA in 2013 with a change to Rule 260.2 (viii) and LAVic converting all their VBP's in 2014.) The new standardised times are shown in the record table. Whichever time is lower using the standardised time will be the new record.

- Distances under 400m: + 0.24 seconds
- Distances of 400m or 4x100m relay: + 0.14 seconds
- Distances greater than 400m: No change
